

Exercise 2:

MgO

Lattice vibrations

$$\phi_{ij} = - \frac{F_{ni}}{u_{mj}}$$

$$D = \begin{pmatrix} \phi \\ \frac{\phi}{\sqrt{M_1 M_2}} \\ \vdots \end{pmatrix}$$

Dielectric properties

e^- contribution

ionic contribution

$$\vec{P}(\omega) = \epsilon_0 \chi(\omega) \vec{E}(\omega)$$
